# **General Preparation Instructions**

- Do not eat or drink after midnight the night before your procedure. (No Chewing Gum, candy etc..)
- Please allow 90 minutes for your procedure.
- If you plan to have **any** type of surgery prior to your scheduled procedure, please let us know.
- Women of childbearing age (< 50 years old) will have a pregnancy test performed on procedure day.
- On the day of your procedure please take your heart, blood pressure and seizure medications that you normally take with a small sip of water.
- DO NOT consume illicit drugs <u>7 days</u> prior to your procedure. This may adversely affect outcomes and anesthesia. This may cause your procedure to be rescheduled
- If you are diabetic or on weight loss injections, please see page  $\underline{2}$  below.
- You must have a driver with you; no taxi, bus or uber unless you have someone that can stay with you while the procedure is being performed. Your driver must remain in the building during your procedure, or the procedure will be rescheduled.
- Leave all valuables at home or with your driver on procedure day. This includes, but is not limited to jewelry (watches, bracelets, necklaces, earrings, rings), cell phones, purses or wallets, and any money.

	(semaglutide), Mounjaro (tirzepatide), Trulicity (dulaglutide), Byetta		
	(exenatide), Bydureon, Zepbound, Adlyxin, and Victoza.		
Oral (tablets by	Usual dose	Do not take	Do not take
mouth)			
Rybelsus	Hold for 7 days prior to procedure.		
Januvia, Jardiance,	Hold for 3 days prior to procedure		
Invokana, Farxiga,			
Steglatro, and			
<u>Brenzavvy</u>			
Long-Acting Insulin	Take half your usual	Take half your	Do not take
	dose	usual dose	
	Note: If you check your blood sugar near your usual evening meal, you may		
	adjust this half dose up or down depending on your reading.		
Regular Insulin	Follow your sliding scale if you take before meals		
Insulin Pump	Confirm dosage adjustment with your medical provider		

If you take any of the above weight-loss/diabetic medications, please follow the clear liquid diet on page 3 for the entire day before your procedure. Nothing to eat or drink after midnight.

# **Clear Liquid Diet**

## You may consume the following:

#### **Drinks**

- Juices (like apple, pineapple, or grape) and any strained citrus juices; none with RED color
- Hot tea, iced tea and coffee without cream or milk
- Soft drinks like ginger ale, lemon-lime soda, club soda, cola, diet cola and root beer.
- Sports drinks (Gatorade and Powerade), orange, blue, pink, purple, green and yellow are okay (nothing red in color)

# Soups

Clear broth, bouillon, or consommé

#### **Desserts**

- Plain popsicles NOT the ones with pureed fruit or fiber in them; nothing red in color
- Flavored gelatin, such as Jell-O® without fruit. You may also drink gelatin as a warm beverage before it sets. Nothing red in color

#### Other

Sugar, honey, jelly or syrup

#### **DO NOT** consume the following:

- Any beverage that you cannot see through; nothing red in color should be consumed
- Beverages containing alcohol
- Dairy products, such as milk, hot chocolate, buttermilk, and cream
- Non-dairy creamer
- Fruit smoothies, nectars, fruit juices with pulp, or prune juice.

# <u>Depending on your coverage, you may receive the following bills once claims have been processed:</u>

**Procedures:** Please call your insurance company to verify coverage for preventative, routine, diagnostic, or screening services. Patients are expected to pay their total estimated procedure cost prior to rendering service. Our office will provide the estimated amount based on eligibility benefits received from your insurance.

- Physician Fee: Fee paid to the physician for performing services. This bill will come from Gastroenterology Consultants of Savannah, PC.
- Facility Fee: The facility in which you have the procedure performed will send a separate bill.
  - Facilities used by our providers: (We suggest contacting your insurance company to ensure your scheduled facility is in network)
    - Endoscopy Center of Coastal Georgia, LLC
    - St. Joseph's/Candler Health System
    - Effingham Health System
- Anesthesia Fee: Anesthesia is billed separately from the facility fee.
- Pathology: If you have a specimen removed, laboratory and pathology are billed separately.

Some insurance companies require precertification. Our office will try to verify your benefits and obtain necessary prior authorizations; however, this is not guarantee of payment. We will submit all insurance claims on your behalf if all necessary information is provided. If coverage is deemed inactive for your dates of service, you are responsible for the balances.

### **Late Cancellations/No-Shows:**

# **Procedure Policy:**

- Cancellations less than 72 business hours before your procedure date will result in a \$150 fee.
- No-showing to your procedure will result in a \$150 fee.
- If a procedure must be repeated/rescheduled due to poor patient preparation, this may result in multiple insurance claims and additional patient responsibility.

Dear Patient,

The following information is provided to help you better understand the process of the laboratory test your health care provider ordered.

# Why did my health care provider order this lab test?

Providers order testing to rule out potential complications or confirm suspected diagnoses. These tests can save you both time and money on unneeded therapies or surgeries. Additionally, our laboratory diagnostics can help your provider identify and more rapidly treat potential medical conditions before they worsen.

## Who is Advanced Pathology Services?

APS is an anatomic sand molecular pathology laboratory located in Central Arkansas. Healthcare providers commonly use our lab because of our specialized approach to patient needs. We offer certain testing that can only be found in less Than 20 laboratories nationally. Additionally, soft tissue and suspected melanoma cases are read by a board-certified pathologist to provide the most accurate and specialized interpretations of patient specimens.

#### Lab Results

Your results will be sent directly to your treating provider. Please remember to schedule your followup appointment with your physician to receive the results and, if needed, determine any further course of action.

#### **Insurance Information**

Within usually one to four months of your laboratory test, your insurance carrier will send you an Explanation of Benefits (EOB). THIS IS NOT A BILL. Occasionally, APS has to resubmit to your insurance with further information to achieve insurance payment.

#### **APS Bill**

The amount you owe for this laboratory test, if any, will be sent to you via mail. In the event you notice any discrepancies or have questions, please do not call your provider. Our Billing Specialists at APS are happy to discuss your insurance benefits, patient responsibility, and payment options.

#### **Contact Information**

For questions or concerns regarding your APS lab bill, please call our lab at 501-225-1400 and ask to speak to one of our Billing Specialists.

Thank you, Advanced Pathology Solutions
